

Treatment Options for COPD/Emphysema

The Zephyr Valve is not a drug or a surgery. It is a bronchoscopic treatment option that can help patients breathe easier, do more, and enjoy life.¹

Who is Eligible For Zephyr Valves

Patients who have:

- Confirmed COPD or emphysema diagnosis
- Quit or are willing to quit smoking
- Shortness of breath, even while using COPD inhalers
- FEV₁ ≤50% predicted

What Is It & How Does It Work?

- Tiny valves placed in the airways
- Allows trapped air to escape
- Lets the healthier parts of the lungs expand and take in more air
- Not a medication or a surgery (no cutting or incisions)

>20,000

patients treated globally

Everyday tasks are easier. This procedure has been such a gift to me! I would do it again in a heartbeat!

– Shelley, 62, Phoenix, AZ

Ask if the Zephyr Valve could be right for you.

Complications of the Zephyr Endobronchial Valve treatment can include but are not limited to pneumothorax, worsening of COPD symptoms, hemoptysis, pneumonia, dyspnea and, in rare cases, death.

Brief Statement: The Pulmonx Zephyr® Endobronchial Valves are implantable bronchial valves indicated for the bronchoscopic treatment of adult patients with hyperinflation associated with severe emphysema in regions of the lung that have little to no collateral ventilation. The Zephyr Valve is contraindicated for: Patients for whom bronchoscopic procedures are contraindicated; those with evidence of active pulmonary infection; known allergies to Nitinol (nickel-titanium) or its constituent metals (nickel or titanium); known allergies to silicone, or with large bullae encompassing greater than 30% of either lung; Patients who have not quit smoking. The Zephyr Valve should be used with caution and only after careful consideration in treating patients with: Prior lung transplant, LVRS, median sternotomy, or lobectomy; Congestive heart failure or recent myocardial infarction; FEV1 <15% of predicted value. Use is restricted to a trained physician. Prior to use, please reference the Zephyr Endobronchial Valve System Instructions for more information on indications, contraindications, warnings, all precautions, and adverse events.
Caution: Federal law restricts this device to sale by or on the order of a physician.
